

EXTRA

THE

PALMYRA CIRCLE

No. 3 A 1949

SUNDAY AM E X T R A.

March 13, 1949.

A or several dispatches came in this morning that changed things considerably.

The Averyies are not leaving. The P&S Maintenance crew are in a Happier frame of mind now that the boss is staying.

The rug and Ice Box or rather the electric refrigerator in the for sale adds are not for sale now.

All other items are still for sale as the other people are not scheduled to leave at this time and we hope they have not changed their minds about selling.

The list of outgoing passengers will probably be changed some more before the W.C.65 leaves Palmyra on its return trip to Honolulu.

The Fullard Loos are listed to return on the 65. Mr. Fencil is also on the manifest. The little mynah Birds Submarine cable has been busy all morning and at the present time we cannot find our code book to do ant deciphering of the messages. Pete has been down with the chickens all morning listening to the gossip. We hope that he gets back in time for this special issue.
